This catalogue is a study which contains designs and drawings of widespread used paving stones that we have prepared for paving stone producers.

We have been realizing rapidly a lot of stone drawings, designs and mould designs that this catalogue does not contain it, with modern techniques in electrical environments.

With the experience of years and our modern and developed machinery park, we can manufacture perfect moulds for all types of block making machines.

For all of your requests about moulds, we are expecting your calls.

Best Regards,

Mustafa YONTAR
